

# EVEN UP® CLINICAL PIGMENT PERFECTOR®

Brighten, correct and protect your skin with Colorescience® Even Up® Clinical Pigment Perfector®. Lightly tinted and clinically tested to diminish the appearance of discoloration and immediately blur stubborn brown spots, while zinc oxide and titanium dioxide deliver non-chemical UVA/UVB sunscreen and environmental protection.

## FEATURES & BENEFITS

- + **Brighten:** Our proprietary LUMIRA® Skin Brightening Complex is clinically tested to address the appearance of brown spots and other skin discoloration
- + **Correct:** Iron oxide-infused mineral perfecter instantly diffuses the appearance of skin discoloration and evens skin tone
- + **Protect:** Non-chemical, mineral SPF 50 sunscreen (Zinc Oxide and Titanium Dioxide) protects skin from UVA/UVB rays and environmental stressors. Water resistant (40 minutes)

## SPECIALTY INGREDIENTS

**LUMIRA® Skin Brightening Complex:** A highly effective, patented formula that is clinically tested to address the multi-phase pigmentation process that leads to the appearance of skin discoloration:

- + **Vital ET™:** This bio-available form of vitamin E provides antioxidant support while helping to calm skin both prior to and following UV exposure
- + **Venuceane:** A powerful marine extremozyme that enhances skin's natural barrier by defending against infrared rays and helps support melanin balance
- + **Revinage:** Natural botanical extract that helps even skin tone by reducing the appearance of discoloration in the skin
- + **Unilucent PA-13:** A bioactive complex that minimizes the appearance of dark spots on the skin's surface and brightens complexion

## HOW TO USE

1. Dispense 1-2 pumps onto your fingertips and rub between your fingers to activate the minerals
2. Apply liberally to lightly moisturized face ensuring even coverage as the first step in your make up application
3. Follow with your favorite Colorescience foundation and enhancers
4. Apply Sunforgettable® SPF 50 Brush-on Sunscreen every two hours for continued protection

## WHY YOUR CLIENTS NEED EVEN UP

- + Ideal for pigmentation and discoloration, this 3-in-1 advanced treatment provides:
  - Immediate color correction of brown spots and hyperpigmentation and ongoing benefit of addressing underlying causes
  - Protection against future sun damage with non-chemical Broad Spectrum SPF 50 Sunscreen
  - Skin priming properties enabling it to be worn alone or under makeup
- + Even Up can be used in conjunction with non-ablative treatments (i.e. IPL, chemical peels, and dermal fillers) to enhance patient outcomes

**ALL COLORESCIENCE® PRODUCTS EXCLUDE: TALC, DYES, SYNTHETIC FRAGRANCE, MINERAL OIL, DRYING ALCOHOLS AND HARSH CHEMICALS.**
